

New Exam Preparation Option for SWE Certifications

For immediate release

New York, NY, March 19, 2010...The Society of Wine Educators (SWE) is pleased to announce a very practical new service for exam candidates. We now offer a formal exam review for our three certification exams – Certified Specialist of Wine (CSW); Certified Specialist of Spirits (CSS); and Certified Wine Educator (CWE). We know that candidates invest significant effort and financial resources in passing these exams, and when not successful, want to know specific subject areas to focus on in order to succeed in the future.

For a charge of \$75 for CSW or CSS and \$150 for CWE, an examiner will perform a written review of the candidate's most recent exam. This review will include a breakdown of the exam's subject areas, analyzing the number of questions that were answered correctly for each area. The review also includes a personalized plan and comments from the reviewer. In the case of the CWE, the review includes analysis of the essay exam and Tasting Rationale, if applicable.

Please contact the office at info@societyofwineeducators.org if interested in an exam review. Reviews are only available for exams taken August 2009 or later.
